## Superintendent's Report.

To the citizens of Lincolnville:—

In submitting to you this report I think it can be truthfully said that the past year has been a successful one in our schools. But were everything entirely satisfactory there would be no further need of improvement.

Parents should work with the teachers for the benefit of the school, therefore better results are ours where this interest has been shown.

The Matthews and Miller school houses should be improved by paint.

It would be a great benefit to the people on the shore if the Trap and Beach schools could be united thus making a graded school.

The books are in a very good condition although a few new ones should be added through the coming year.
